

The Human Side Of Success

ABOUT TECHNOLOGY OWNER

25+ Years of Experience in Automotive Systems and Components

- 01** National High-Tech & “Specialized Advanced” enterprise
- 02** Continuous R&D investment (>5% of annual revenue)
- 03** Listed manufacturing group with multi-plant operations
- 04** CNAS-recognized R&D and testing laboratories
- 04** Strong engineering depth with industrial-scale execution

Instrument Cluster Technology Overview

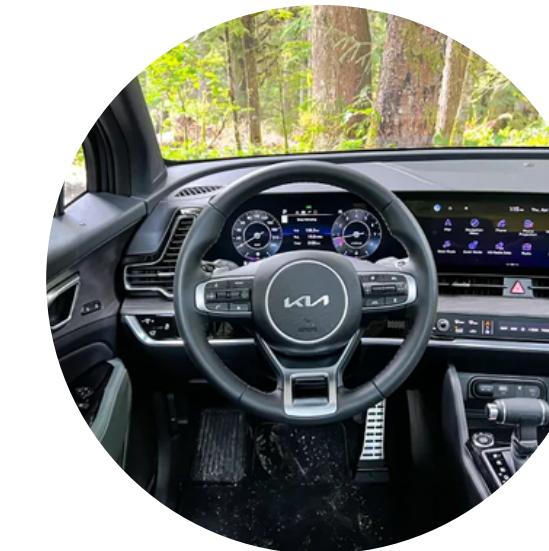

- Analog / Digital / Hybrid instrument clusters
- TFT / LCD-based architectures
- EV & connected-vehicle compatible designs

Scalable Platforms for -

2Wheelers,
3Wheelers

Passenger
Vehicles

Electric Vehicles

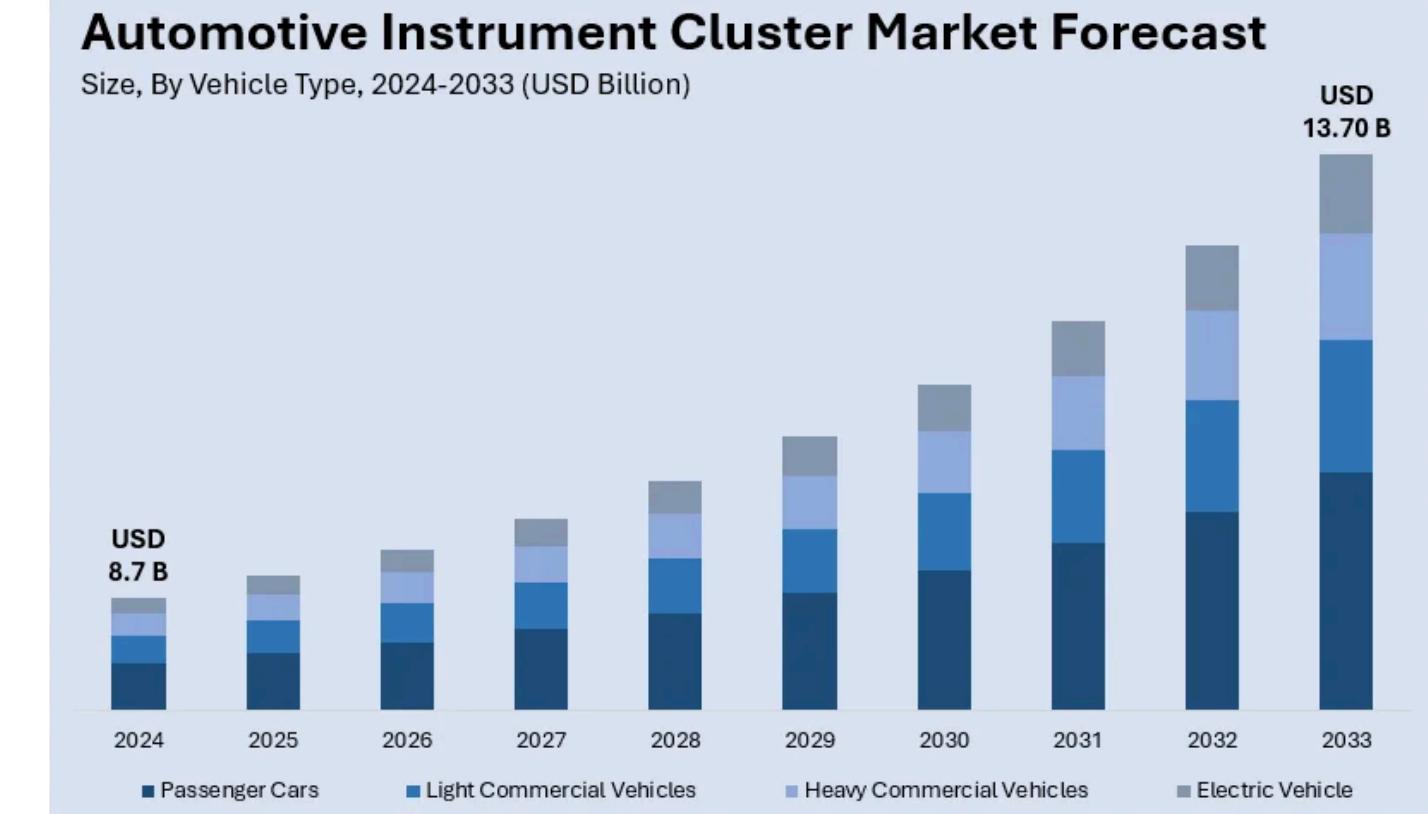

Technology Readiness & Validation

- OEM-approved reference programs
- Validated hardware & software architecture
- Established manufacturing processes
- Quality systems aligned with global OEM standards
- Ready for fast localization and SOP in India
- Low development risk, faster go-to-market

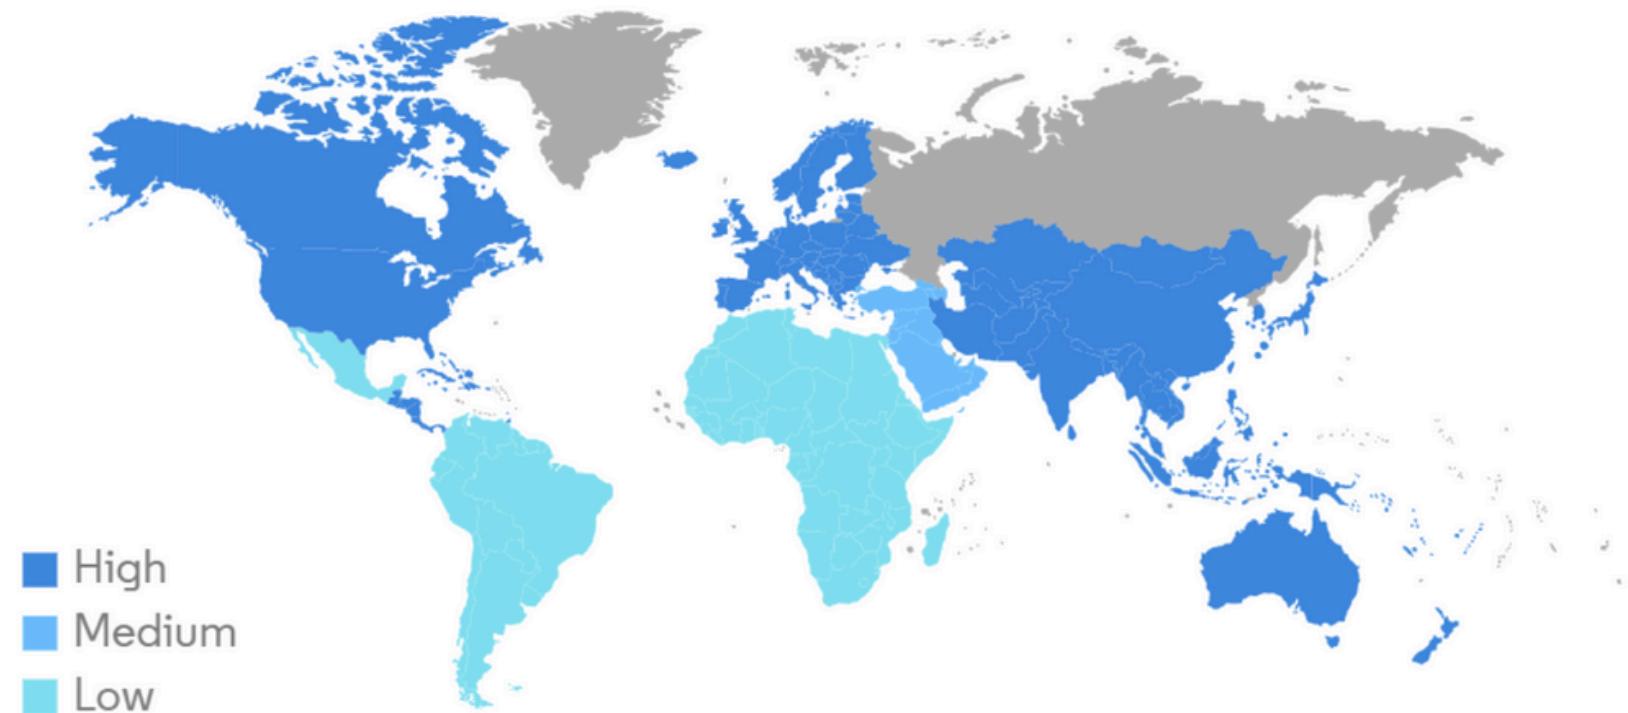

Why India, Why Now?

- Rapid shift toward digital & smart clusters
- OEM push for localization and IP ownership
- EV programs demanding integrated HMI solutions
- Limited Indian suppliers with ready instrument-cluster IP

Automotive Digital Instrument Cluster Market - Growth Rate (%) by Region (2024 - 2029)

COMPLETE TECHNOLOGY TRANSFER FOR INSTRUMENT CLUSTERS

Product Technology

- Hardware & electronics design
- Embedded software / firmware stack
- System architecture & specifications

Manufacturing Know-How

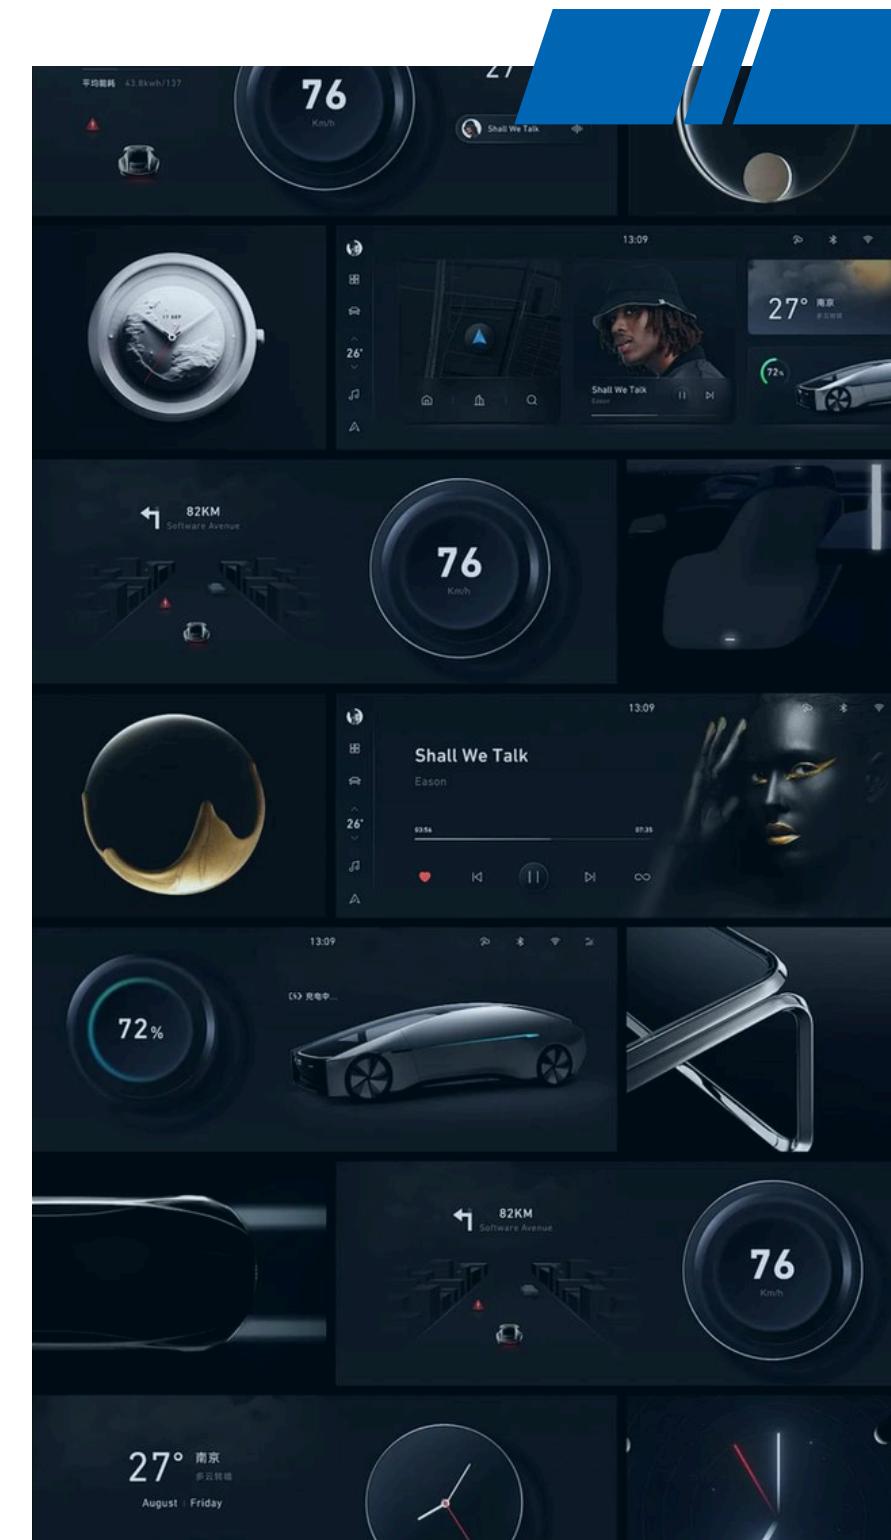

- Process flow & SOPs
- Testing & validation procedures
- BOMs, tooling guidance & quality benchmarks

Localization Support

- Assistance during India localization
- SOP ramp-up & early production support
- OEM-facing technical support, where required

Commercial Flexibility

- Licensing / outright transfer structures
- JV or strategic partnership options
- Potential for India-exclusive manufacturing & market access

IDEAL PARTNER PROFILE

- Automotive Tier-1 / Tier-2 suppliers
- Electronics / EMS companies entering automotive
- EV-focused manufacturers
- PE-backed platform companies / entrepreneurs

NEXT STEPS

- NDA & technical deep-dive
- Commercial structuring
- Localization & go-to-market roadmap
